JANUARY ART SMART CHALLENGE

Did you know you can see original prints, of John James Audubon's famous book, "Birds of America" at the Morton Arboretum Sterling Library?! John James Audubon's goal was to locate, collect and illustrate every species of bird native to North America between 1827 and 1838. "Birds of America" was a culmination of his goal. His work remains the standard against which 20th and 21st century bird artists are still measured.

This month's coloring page is for the students to draw and create a version of their own favorite animal. Perhaps it will be as amazing as Mr. Audubon's?!
